PROFESSIONAL EXPERIENCE

LTIMindtree, *Senior Software Engineer*   Aug 2021 – present | Hyderabad, India

- Experienced in developing automated services for consumers of different domains and interests utilizing a variety of tools, databases, and APIs using efficient techniques.
- Demonstrated expertise in scripting using Python, PowerShell to design, implement, and optimize complex workflows, enhancing operational efficiency saving around 20 FTEs.
- Expert in translating user/business needs into functionally clean, secure code with relevant stack of technologies using best coding standards and practices leveraging Agile methodologies.
- Got the opportunity to lead the initial planning and structuring of the migration process, transitioning all bots from an old version of our in-house orchestration tool to an advanced one.
- Devised SQL scripts which led to smooth data migration for orchestration tool upgradation.
- Designed reports to display the health of various servers corresponding to client business.
- Acquired experience of retrieving data from REST APIs using python.
- Participated in data on-boarding POC - to design consumable data lake leveraging Azure, Databricks, etc.
